Cluster 1
Cluster 2
Cluster 3
Cluster 4
Cluster 5
(a)
dumpsite leachate
open dumpsite
electrical conductivity
heavy metals
biochemical oxygen demand
total dissolved solids
unlined landfill
oxygen isotopes
chemical oxygen demand
leachate plume
hydrogen isotopes
principal component analysis
dissolved inorganic carbon
tritium
seasonal variation
self-organizing maps
stable isotopes
ammonia nitrogen
carbon isotopes
landfill closure
nitrate
humic-like substances
hydrogeochemistry
dissolved organic carbon
landfill age
chloride
dissolved organic matter
natural attenuation
contaminant transport
vadose zone
sulfate reduction
electrical resistivity tomography
ammonium
source apportionment
domestic wastewater
(b)
dumpsite leachate
open dumpsite
electrical conductivity
heavy metals
biochemical oxygen demand
total dissolved solids
unlined landfill
oxygen isotopes
chemical oxygen demand
leachate plume
hydrogen isotopes
principal component analysis
dissolved inorganic carbon
